

ADDITIONAL SAMPLE PACKS:

SUBJECT AREAS:

SÍ! YES! SÍ!

Spanish, Ages 3-5

Children will be fully immersed in the Spanish language as they associate familiar objects with new words, learn about culture, and explore the sounds of a new language.

- Associate familiar objects with Spanish words
- Learn pronunciation through native voices
- Study more than 100 words and phrases
- Explore Spanish culture

ANIMAL ADD UP!

Math, Ages 5-7

Animals from bunnies to penguins show up to take kids on rescue missions, into the deep sea on submarines, and racing for carrots - all to learn basic math concepts.

- Learn addition and subtraction
- Discover basic geometry
- Practice time and money math
- Develop estimation skills

THEMES:

PROBLEM SOLVER!

STEAM, Ages 8-10

Kids will push thinking to new levels and solve real word problems with challenges that encourage them to combine art with science, technology, engineering and math skills!

- Play and build your way through puzzles and games
- Learn about the importance of water preservation
- Explore force, acceleration, buoyancy, heat, elasticity and gravity
- Practice fractions, spelling, graphs, division, geometry, grammar, and more

WORD DASH!

English Language Arts, 6th-8th Grade

Middle school students will be fully engaged with this series of age appropriate stories and games that will sharpen vocabulary, reading, discovery skills, and more!

- Solidify reading and word skills
- Expand vocabulary
- Develop fluency in writing
- Dive deep into middle school curriculum

OUT OF THIS WORLD!

Space, Ages 5-7

Kids will use imagination and brainpower to work their way through a galaxy of interactive storybooks, games, math challenges and more!

- Improve memory and concentration
- Explore math concepts
- Learn early reading and phonics skills
- Develop critical thinking skills

WONDER WORLDS!

Fantasy, Ages 10+

Kids will wander deep into worlds filled with mazes, islands, and magical forests where they will play games to learn grammar, math, problem-solving skills and more.

- Learn grammar and word structure
- Strengthen problem-solving skills
- Explore force, acceleration, buoyancy, heat, elasticity, and gravity
- Build critical thinking skills

SAMPLE SUBJECT AREA PACK:

NUMBER CRUNCHER!

Math, 4th Grade

Children will encounter math concepts like integers, fractions, measurements, and geometry as they defend against enemy submarines, host a pizza party, explore space and more!

- Practice addition, subtraction, multiplication, and division
- Master the fundamentals of fractions
- Build estimation skills
- Solve word problems

Battle Station
In this new math learning game, the only way to defend your ship from enemy submarines is to estimate their location. Your ship's sonar will tell you the coordinates of incoming subs. Then, you must estimate the subs' locations using the marker buoys.

Critter Cruise
Explore the U.S. and Canada on this fun and zany road trip with your favorite critter friends! Kids will enjoy driving to some of North America's most famous roadside attractions... and getting quizzed in math and language arts along the way.

Fourth Grade Learning Games
10 all-new educational mini-games for 4th Graders! Help them learn important topics like fractions, spelling, graphs, division, geometry, grammar and more.

Math Blaster Space Zapper
With over 20 lessons in addition, subtraction, multiplication and division, and 3 levels of difficulty, you can challenge your aim, accuracy and math skills in this thrilling, arcade-style game.

Math Planet - 4th grade
Each game builds high-need skills with conceptual learning and fluency. Covered topics range from addition and subtraction to geometry and measurement.

Math Pop Grade 4
Math Pop Grade 4 is the most fun and engaging way to practice math problems aligned to the Common Core Standards. Players earn coins that they can spend on a super fun game - Aqua ride.

Max & Ruby: Max's Mole Mash
Entertain your child for hours with hilarious game play. Help Max mash moles before time runs out! Tap the screen every time a mole appears and watch as Max mashes them quickly back into their holes.

Pizza Party
Hojo, Dr. Potato, Mr. S, Scuba and Cal are having a party, and it's up to you to split up the treats. Learn about fractions and solve word problems as you face a variety of challenges, such as sharing cake equally with each guest or giving extra pieces of pizza to hungry party guests.

Scaredy Squirrel Stash N Crash
Help Scaredy Squirrel stack his cans without falling! Players try to remove one can at a time while keeping Scaredy from hitting the floor. Every level gets harder and higher, as players must use all their cunning and strategy to advance!

Solitaire
One of the longest played card games in existence, Solitaire has been the favorite of common folk and presidents alike. And, with specially designed cards that help children make sequences themselves, you can introduce your child to this timeless pastime.

SAMPLE THEME PACK:

YOU AUTO KNOW!

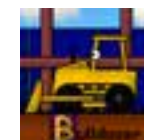

Transportation, Ages 3-5

Preschoolers pick up speed in their favorite cars, trucks and trains as they go on an action-filled adventure that teaches creativity, critical thinking and more.

- Explore different vehicles and their parts
- Solve puzzles and play matching games
- Express creativity
- Strengthen critical thinking and problem-solving skills

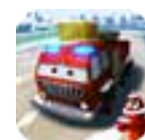

Car Games for Kids
Do your kids love cars? Do they love planes, fire trucks, police cars, and driving too? Look no further. Car Games for Kids is a fun animated and interactive puzzle game for toddlers, preschoolers, and kids.

Construction Alphabet for Kids
This app allows toddlers and preschoolers to explore both letters and construction vehicle names. The interface lets toddlers and preschoolers easily move and interact with the trucks on the screen.

Kids Trucks: Numbers & Counting
Kids Trucks Numbers & Counting is perfect for toddlers and preschoolers who love trucks. It works on number identification, counting, and one-to-one correspondence in a way that is fun and easy for kids to use.

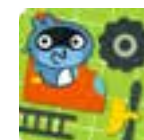

Little Fire Truck in Action
Experience a very exciting driving game with all obstacles and adventures that can happen to a Fire Truck on the road.

Little Garbage Car in Action
The goal here is very simple - deliver the junk as far as you can. Cartoonish top-down view and physics are simplified and help you to enjoy the driving experience of a garbage truck.

Max & Ruby: Rabbit Racer
Help Max & Ruby be extra speedy as they race across town. Select from 30 different racers and collect prizes for your own toy trunk.

Pango Imaginary Car
Design and build your dream car. Choose between fifty different objects: a tractor wheel, a fridge, a truck horn, rocket engines, and more. Combine them and create the car of your dreams.

Puzzingo Train
A puzzle pack that's all about trains! Experience seven different puzzles that allow children to build model trains and conduct them on the rails. Children learn words, sounds, matching skills and more through interactive game play.

Tizzy Driving Adventure
The latest smash hit release from Tizzy Labs brings your child the wonder and excitement of driving their very own vehicle, on the open road, for the first time.

Train Games for Kids: Zoo Railroad Car Puzzles
Twelve different child and toddler friendly, jigsaw-style puzzles with options to change the number of pieces and remove other helpers.
